PROFESSIONAL SUMMARY

CNCF-certified DevOps Engineer experienced in designing and deploying cloud-native microservices and scalable infrastructures. Specialized in Kubernetes, AWS, and CI/CD automation, with proven results in performance optimization and zero-downtime deployments.

PROFESSIONAL EXPERIENCE

•Atlas Cloud Service

February 2026 – August 2026

Internship - Devops / Cloud Engineer

- Designed and deployed a **multi-cluster GitOps platform** based on **Kubernetes** and **Rancher**, enabling automated application delivery across environments
- Set up CI/CD pipelines with **GitLab CI/CD** and **Helm**, improving deployment consistency and reducing manual errors.
- Technologies: Kubernetes, Rancher, Fleet, GitLab, Helm, Harbor, Hashicorp Vault, Redis, Spring Boot, GitLab CI/CD

•Norsys Africa (Marrakech)

May 2024 – June 2024

Internship - Full Stack Developer

Github

- Built a mobile & web application for **blood pressure monitoring** with AI integration, real-time alerts, and automated health surveillance
- Technologies: Next.js, Flutter, Laravel, Hugging Face, Firebase, MongoDB Atlas, Docker

•Ministry of Health and Social Protection (Safi)

March 2024 – June 2024

Internship - Full Stack Developer

- Developed **MedConnect**: digitized medical records for occupational health units, reducing manual processing by **85%**
- Technologies: Next.js, Express.js, MongoDB, JWT Authentication, Chart.js

CERTIFICATIONS

- **CKS: Certified Kubernetes Security Specialist** - CNCF
- **CKA: Certified Kubernetes Administrator** - CNCF
- **KCSA: Kubernetes and Cloud Native Security Associate** - CNCF
- **KCNA: Kubernetes and Cloud Native Associate** - CNCF
- **AWS CCP: AWS Certified Cloud Practitioner** - AWS
- **CCNA: Switching, Routing, and Wireless Essentials** - Cisco

TECHNICAL SKILLS

- **DevOps & Cloud:** Kubernetes (CKA), Rancher, Azure, Fleet, Harbor, Docker, Helm, ArgoCD, Flux, Jenkins, GitHub Actions, GitLab CI/CD, AWS,RDS , EKS , Terraform, Istio, Kyverno.
- **Monitoring:** ELK Stack, Prometheus, Grafana, Zipkin, Kiali, SonarQube, Distributed Tracing
- **Programming:** Java 17, Go, Spring Boot 3.x, Node.js, Python, React 18, Next.js 15, TypeScript, Angular, Apache Kafka
- **Databases & Security:** PostgreSQL, MongoDB, MySQL, Redis,Vault ,JWT/OAuth2, mTLS, SSL/TLS
- **Systems & Tools:** Linux (Ubuntu), Bash, PowerShell, Git, GitOps, BFF , Docker Compose, K3s , Minkube , Kind .

EDUCATION

- **Master's in Information Systems Engineering** - Faculty of Sciences Semlalia Marrakech (FSSM)

2024–2026 / **Honors**

KEY PROJECTS

•NexusCommerce: Cloud-Native E-Commerce Ecosystem

May 2025

Enterprise-Grade Microservices Platform

Github

- Architected an **8-microservice ecosystem** (Spring Boot + Go) with Apache Kafka and **BFF** service, achieving **70% reduction** in API calls and **sub-200ms response times** via Redis caching
- Deployed on **AWS EKS** with Terraform IaC, ArgoCD GitOps, Istio service mesh, and a full observability stack (ELK, Prometheus/-Grafana, Zipkin)

•Market Impact Analysis: AI-Powered Financial Intelligence Platform

Oct 2024 – Jan 2025

Cloud-Native Algorithmic Trading System

Github

- 4-microservice platform (Go + Java) processing **12,500+ articles/hour** with **78.5% prediction accuracy** and **99.95% uptime** on AWS EKS with FluxCD and Flagger canary releases
